COMPANY PERFORMANCE

Executive summary

Demand and route engagement advanced during the period, led by destination discovery and dining interest.

ACTIVE USERS	SESSIONS	ROUTE STARTS	COMMERCIAL ACTIONS
18,420 +14.3%	42,680 +12.6%	21,340 +12.4%	7,860 +13.7%

WHAT CHANGED

1. Active users increased 14.3% versus the previous period.
2. Route starts reached 21,340, with continued destination-planning momentum.
3. Commercial actions increased, but remain an intent signal rather than realized revenue.

Metric confidence: verified. Commercial actions indicate intent; they are not transactions, sales, or revenue.

PRODUCT SIGNAL

Growth & engagement

Audience and session activity with exact period comparison; aggregates only.

ACTIVE USERS OVER TIME

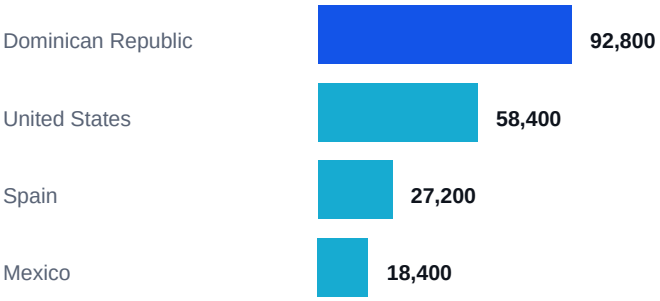
ACTIVE USERS	SESSIONS	ROUTE STARTS
18,420 +14.3%	42,680 +12.6%	21,340 +12.4%

DESTINATION DEMAND

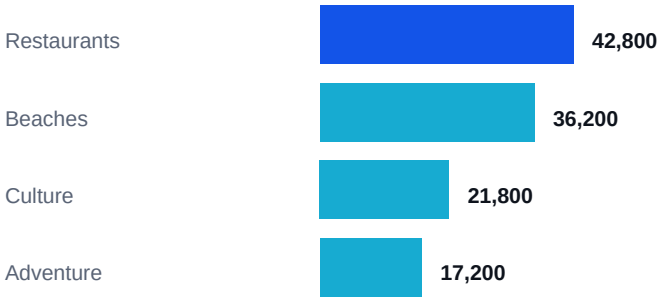
Tourism & markets

Market and category aggregates are shown only when the cohort meets the investor-safe threshold.

LEADING MARKETS



LEADING CATEGORIES



DEMAND INDEX

76

Aggregated investor-safe output; cohorts below five are suppressed. Search text and user-level identifiers are excluded.

DECISION SUPPORT

Commercial opportunity

Evidence-led opportunities; conclusions remain bounded by the observed sample.

01 Restaurant discovery gap

Dining demand grew 20.9% while the supply index remained below demand.

Prioritize verified dining inventory in the leading destination.

02 Route planning momentum

Route starts grew 12.4% period over period.

Test partner calls to action on high-intent route moments.

MONETIZATION

Revenue readiness

No verified financial source is connected. Revenue is unavailable, not zero.

VERIFIED REVENUE

Unavailable

Advertising

Maturity: integration pending

Connect an authorized AdMob or Google Ad Manager reporting credential with account and currency scope.

Subscriptions

Maturity: integration pending

Connect an authorized RevenueCat or Stripe source and define recognized-revenue and refund handling.

Promoted content

Maturity: planned

Implement a promotion contract ledger with booked, delivered, invoiced, and paid states.

Tickets & partners

Maturity: planned

Connect partner settlement data with order, refund, fee, currency, and payout identifiers.

Business intelligence

Maturity: planned

Define billable products and connect an invoice or subscription source before reporting value.

Commercial actions indicate intent; they are not transactions, sales, or revenue.

PRIVACY

Aggregated investor-safe output; cohorts below five are suppressed. Search text and user-level identifiers are excluded.

REVENUE POLICY

Only reconciled values from authorized financial sources qualify as revenue. Commercial actions remain intent signals.
